

## Publication of the manuscript

### *International Journal of Hydrogen Energy*

Please check the following points before submitting your manuscript. Manuscripts that do not conform may be returned for correction and resubmission.

- The presented materials are new and do not published recently in any form (the plagiarism (including self-plagiarism) has been identified by iThenticate software).
- The manuscript is 1.5-spaced with a font size of 14 pt (Times or Times New Roman preferred).
- The full addresses and affiliations for all co-authors are given.
- The corresponding author(s) identified by an asterisk (\*) and their contact details (phone number and e-mail address) are given on the first page.
- A Graphical Abstract is provided.
- Highlights (3–5 lines with 85 characters including spaces) are provided.
- A one-paragraph abstract of no more than 200 words for research articles/reviews or 150 words for short communications is prepared.
- The page numeration is provided.
- Keywords (maximum 6) are provided immediately after the abstract.
- All figures, tables, and schemes (including their captions) are inserted at appropriate places in the text.
- Additionally, high-resolution figures are attached.
- References are prepared in the correct format for IJHE.
- References should be relatively new; no less than 30% of them should cite works published within the last three years (2018–2020).
- All references mentioned in the Reference list are cited in the text, and vice versa.
- The manuscript is spell-checked and grammar-checked.
- A competing interest statement is provided, even if the authors have no competing interests to declare.
- Referee suggestions (5 persons from different countries) and their contact details are provided.

Authors guide, IJHE: <https://www.elsevier.com/journals/international-journal-of-hydrogen-energy/0360-3199/guide-for-authors>

Recommended parameters of manuscripts:

Type	Short communication	Research article	Review article
Length, the number of words (without Reference list and captions)	3 000	6 000 – 8 000	10 000 – 30 000
The number of representing materials (figs, tables, schemes)	Up to 5	Up to 15	Up to 20
The number of references	15–30	30–70	50–300
